RE: PLAN CHECK # 2008-0651
REMODEL AT 22415 100TH AVE W

On behalf of the Planning Division, I have reviewed the above building permit application. When I reviewed it the first time in August 2008, I was able to sign off on the permit, because the plans indicated that the remodel was interior only. Your plans indicate that some exterior walls were repaired, but are in the same location as they existed previously. Please make the following correction to the site plan:

1. If all exterior walls remain in the same location, as prior to the remodel please make a note on the site plan. If any new exterior walls (not repaired walls) were added please show them as well.

You may red-line the existing plans or submit new copies. Make all submittals to a Development Services Permit Coordinator, Monday through Friday, 8:00 am to 4:30 pm. If you have any questions, feel free to contact me at 425.771.0220.

Thank you.
